

any factors related to carrier identity and

(2) Any fees charged the carrier shall not be discriminatory.

(d) A system shall provide upon request to carriers current information on its fee levels and fee arrangements with other participating carriers. A system's bill to a participating carrier for any fee must contain adequate information and be on magnetic media so that the participating carrier can determine whether the bill is accurate. At a minimum, booking fee bills must include the following information for each segment: PNR record locator number, passenger name, booking status, agency ARC number, pseudo-city code, CRS transaction date, city-pair information, flight number, flight date, class of service, and type of CRS booking.

(e) No system may require a carrier (other than a carrier that owns or markets, or is an affiliate of a person that owns or markets, a foreign or domestic computerized reservations system) to maintain any particular level of participation or buy any enhancements in its system on the basis of participation levels or enhancements selected by that carrier in any other foreign or domestic computerized reservations system. A system may not compel a carrier that owns or markets, or is an affiliate of a person that owns or markets, a foreign or domestic computerized reservations system, to maintain a particular level of participation or buy an enhancements in its system on the basis of participation levels or enhancements selected by that carrier in another foreign or domestic computerized reservations system, until 14 days after it has given the Department and such carrier written notice of its intent to take such action.

[Amdt. 255-9, 57 FR 43834, Sept. 22, 1992, as amended at 62 FR 59802, Nov. 5, 1997]

§ 255.7 System owner participation in other systems.

(a) Each system owner shall participate in each other system and each of its enhancements (to the extent that such owner participates in such an enhancement in its own system) if the other system offers commercially reasonable terms for such participation.

Fees shall be presumed commercially reasonable if:

(1) They do not exceed the fees charged by the system of such system owner in the United States or

(2) They do not exceed the fees being paid by such system owner to another system in the United States.

(b) Each system owner shall provide complete, timely, and accurate information on its airline schedules, fares, and seat availability to each other system in which it participates on the same basis and at the same time that it provides such information to the system that it owns, controls, markets, or is affiliated with. If a system owner offers a fare or service that is commonly available to subscribers to its own system, it must make that fare or service equally available for sale through each other system in which it participates.

§ 255.8 Contracts with subscribers.

(a) No subscriber contract may have a term in excess of five years. No system may offer a subscriber or potential subscriber a subscriber contract with a term in excess of three years unless the system simultaneously offers such subscriber or potential subscriber a subscriber contract with a term no longer than three years. No contract may contain any provision that automatically extends the contract beyond its stated date of termination, whether because of the addition or deletion of equipment or because of some other event.

(b) No system may directly or indirectly impede a subscriber from obtaining or using any other system. Among other things, no subscriber contract or contract offer may require the subscriber to use a system for a minimum volume of transactions, and no subscriber contract or contract offer may require the subscriber to lease a minimum number or ratio of system components based upon or related to:

(1) The number of system components leased from another system vendor or

(2) The volume of transactions conducted on any other system.

(c) No system owner may require use of its system by the subscriber in any sale of its air transportation services.

(d) No system owner may require that a travel agent use or subscribe to

§ 255.9

its system as a condition for the receipt of any commission for the sale of its air transportation services.

(e) No system may charge prices to subscribers conditioned in whole or in part on the identity of carriers whose flights are sold by the subscriber.

§ 255.9 Use of third-party hardware, software and databases.

(a) No system may prohibit or restrict, directly or indirectly, the use of:

(1) Third-party computer hardware or software in conjunction with CRS services, except as necessary to protect the integrity of the system, or

(2) A CRS terminal to access directly any other system or database providing information on airline services, unless the terminal is owned by the system.

(b) This section prohibits, among other things, a system's:

(1) Imposition of fees in excess of commercially reasonable levels to certify third-party equipment;

(2) Undue delays or redundant or unnecessary testing before certifying such equipment;

(3) Refusal to provide any services normally provided subscribers because of a subscriber's use of third-party equipment or because of the subscriber's using the same equipment (unless owned by the system) for access to both the system and to another system or database; and

(4) Termination of a subscriber contract because of the subscriber's use of third-party equipment or use of the same equipment for access to the system and to another system or database.

(c) A system shall make available to developers of third-party hardware and software on commercially reasonable terms the nonproprietary system architecture specifications and other nonproprietary technical information needed to enable such developers to create products that will be compatible with the system.

(d) Nothing in this section shall be construed to require any system or system owner to:

(1) Develop or supply any particular product, device, hardware or software to enable a subscriber to use another system, or

14 CFR Ch. II (1–1–01 Edition)

(2) Provide service or support with respect to any product, device, hardware, software, or service not provided to a subscriber by the system or system owner.

§ 255.10 Marketing and booking information.

(a) Each system shall make available to all U.S. participating carriers on nondiscriminatory terms all marketing, booking, and sales data relating to carriers that it elects to generate from its system. The data made available shall be as complete and accurate as the data provided a system owner.

(b) Each system shall make available to all foreign participating carriers on nondiscriminatory terms all marketing, booking, and sales data relating to bookings on international services that it elects to generate from its system, provided that no system may provide such data to a foreign carrier if the foreign carrier or an affiliate owns, operates, or controls a system in a foreign country, unless such carrier or system provides comparable data to all U.S. carriers on nondiscriminatory terms. Before a system provides such data to a foreign carrier, it shall give written notice to each of the U.S. participating carriers in its system that it will provide such data to such foreign carrier. The data made available by a system shall be as complete and accurate as the data provided a system owner.

(c) Any U.S. or foreign carrier receiving data on international bookings from a system must ensure that no one has access to the data except its own personnel and the personnel of any outside firm used for processing the data on its behalf, except to the extent that the system or a system owner provides such access to other persons.

§ 255.11 Exceptions.

(a) The obligations of a system under § 255.4 shall not apply with respect to a carrier that refuses to enter into a contract that complies with this part or fails to pay a nondiscriminatory fee. A system shall apply its policy concerning treatment of non-paying carriers on a uniform basis to all such carriers, and shall not receive payment
